

Delegate: Ramona M. Hill

Thank you to the chapter for the opportunity to serve as a delegate to the 2021 Leadership Conference and Virtual 69th Boule Part II.

Constitution Forum

- After having the opportunity to moderate this session at Regional Conference, attended this session to hear the information in preparation of serving as a delegate and voting during the Boule.

Plenary I

- Appreciated the process of naming each standing rule after a member of the Directorate and Former Supreme Basilei.
- Was surprised at the number of issues delegates had throughout the entire series of plenary sessions given that chapters have been meeting in virtual settings for over a year now.

Plenary 2

- It was good to see the First Supreme Anti-Basileus preside at this session, demonstrating her style as the incoming Supreme Basileus.
- The report of the Supreme Basileus was comprehensive. This delegate hopes that once the effect of the Vice President of these United States begins to wear off, that all the newly reactivated members will commit to a lifelong relationship with the sorority!

Plenary 3

- The Ivies Beyond the Wall Recognition was beautiful and very well done as well as the Tribute to First Responders.

Plenary 4

- Excellent demonstration of how to utilize the Zoom poll feature to conduct a vote that is anonymous and timely.
- Even though DTO voted to support Proposed Amendment #7, I was glad it was withdrawn until we understand the complexities of how to implement support for candidates from other chapters.

Plenary 5

- This delegate really appreciated the Economic Impact Study and understanding the Sorority's efforts to document the value of the membership's volunteer service.
- Loved the fact that the DTO Ivy Center was so prominently displayed (at least twice that this delegate noticed) during the Building and Properties Committee report.

Chat with the Supreme Basileus – Graduate

- Enjoyed this session and most of the questions posed for Madam Supreme.

Overall Review

- The plenary sessions accomplished the business that was necessary in this virtual environment.
- The vendors were easy to access and spend hard earned \$\$!
- The social events were challenging in that for many attendees were watching, like watching television, with limited opportunity for engagement except for the never ending "chat" comments.

Respectfully Submitted,

Ramona M. Hill
